

# CANT 2022

## New York Number Theory Seminar Twentieth Annual Workshop on Combinatorial and Additive Number Theory

CUNY Graduate Center (Zoom)  
Tuesday, May 24 - Friday, May 27, 2022

### Information

#### 1. REGISTRATION IS FREE, BUT

Registration is free, but participants must register with EventBrite at:

[cant2022.eventbrite.com](https://cant2022.eventbrite.com)

The EventBrite email feature will be used to communicate with CANT 2022 registered participants. Zoom webinar login information will be emailed to registrants via Eventbrite.

#### 2. ZOOM WEBINAR

Here is the link below to join the webinar:

to be posted here

All lectures will be broadcast live on Zoom and will also be recorded and uploaded to the YouTube channel for CANT 2022. This was the format of the two previous conferences: CANT 2020 and CANT 2021.

As a Zoom webinar, participants can type questions into the chat or into the Q & A, but may not ask questions directly to the speaker.

For mathematicians who would like to give a talk at the conference but do not have reliable internet access, or are in a time zone that is inconvenient with respect to New York time, we shall experiment this year as follows: You may pre-record your talk, and we will broadcast your talk on Zoom at its allotted time slot in the conference program.

#### 3. ZOOM SCHMOOZE

There will be breakout rooms on Zoom where conference participants can meet and talk informally.

#### 4. HOW TO SUBMIT AN ABSTRACT

If you wish to lecture in the conference, please send an abstract (both LaTeX file and pdf) to:

melvyn.nathanson@lehman.cuny.edu

Abstracts should contain the following information:

- (1) Your name and your university or professional affiliation.
- (2) Your email address.
- (3) Title of talk.
- (4) Abstract (in simple LaTeX - nothing fancy).

#### 5. YOUTUBE RECORDINGS

There will be a YouTube channel for CANT 2022 talks. Lectures will be recorded and posted. However, if a speaker does not want the talk uploaded to YouTube, please let us know by email.

#### 6. CONFERENCE PROCEEDINGS

Springer will publish the conference proceedings in the book series *Combinatorial and Additive Number Theory*. Manuscripts should be submitted by September 1, 2022. All papers will be refereed.

Papers must be written in Latex using the Springer document class svproc. The following related documents are posted on this website:

- (1) SVProc Document Class Author Instructions for Proceedings
- (2) Springer Guidelines for Authors of Proceedings
- (3) svproc
- (4) author.tex

#### 7. MORE INFORMATION

Questions about CANT 2022 should be sent to:

melvyn.nathanson@lehman.cuny.edu
